K54DB Built-In Echo Gas Grill

PRODUCT FEATURES

- 48" x 22" (1,056 square inches) of primary grilling surface
- Four primary burners, 23,000 BTUs each (LP)
- Natural gas, bulk liquid propane or 20-pound liquid propane cylinder (with ventilated base cabinet)
- Rotisserie system with two infrared burners; motor mounted in chassis
- Safety valves for every burner and electronic control bezels with flame sensor LED indicators
- Interior task lighting
- Three-position warming rack with stowage
- Standard heavy duty laser-cut cooking surfaces
- Convenient cleanout system with three, separate, one-inch-deep trays
- Marine-grade stainless steel

Overall Width / Installation Width	56.25 in (1429 mm) / 54 in (1372 mm)
Overall Depth / Installation Depth	30.5 in (776 mm) / MIN. 24.25 in (616 mm); MAX. 25.375 in (645 mm)
Overall Height / Above Counter Height	29.5 in (749 mm) / 18.125 in (461 mm)
Approximate Product Weight	435 lb (197 kg)
Gas Requirements	Natural Gas: 1/2" (13 mm) male NPT connection. 10 ft. (305 cm) gas hose with quick disconnect provided. Gas service line to deliver 7 i.w.c. at grill location. See BTU information below for pipe sizing.
	Bulk Propane: 1/2" (13 mm) male NPT connection. 10 ft. (305 cm) gas hose with quick disconnect provided. Gas service line to deliver 11 i.w.c. at grill location. See BTU information below for pipe sizing.
	Propane Cylinder: 20-pound (9 kg) propane cylinder with provided 2 ft. (61 cm) gas hose with dual regulator. Requires an appropriately-ventilated cylinder enclosure or optional Kalamazoo base cabinet K-DBC54-LVP
Electrical Requirements	120VAC/60Hz Includes 1 ft. (30.5 cm) 3-prong grounded power cord.
Maximum AMP usage	3 amps
Main Burners Rating	69,000 BTU liquid propane / 67,000 BTU natural gas
Total BTUs	86,000 BTU liquid propane / 82,000 BTU natural gas

Ensure proper gas pipe sizing. Diameter and length of the supply pipe may limit the pressure and BTU delivery.

This appliance is certified to the ANS Z21.58/CSA 1.6 (2018) standard for Outdoor Cooking Gas Appliances.

As with all appliances certified to this standard, this appliance is for outdoor use only and may not be used underneath an overhead combustible structure or surface.

Maintain at least 6 inches (153 mm) of clearance between the sides and back of the grill and any combustible surface.

High altitude kit available.

Do not place the grill in a location where the rear hood openings are likely to be exposed to strong wind. A wind break wall is recommended for installations where the prevailing wind may be a problem.

WARNING: This product can expose you to chemicals including nickel, which are known to the State of California to cause cancer, and lead, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65Warningsca.gov

K54DB Built-In Echo Gas Grill

Notice for Countertop Fabricators

Echo Grill shown in optional Kalamazoo base cabinet.

The countertop should be adhered directly to the tops of the cabinets using silicone adhesive. See detailed instructions in the cabinetry installation manual.

A 1-inch overhang is recommended on all sides. The recommended position of the Kalamazoo Echo Grill will notch the front edge of the countertop 1 inch around the control panel. **A** The countertop should extend below the trim ledge of the grill behind the control panel.

The back plane of the control panel should be flush with the front plane of the cabinetry or other base structure. **B**

The seam between the control panel and the body of the Kalamazoo cooktop **C** should be in front of the countertop.

When the Echo Grill is installed in the Kalamazoo base cabinet, the grill support pads should be adjusted to create a 1/8 inch (3mm) gap between the top of the countertop and bottom of the grill trim ledge. **D** Drop-in grills that are not installed in Kalamazoo cabinetry may rest directly on the countertop.

A drip edge **E** is recommended around the perimeter of the countertop.

Undercounter refrigeration **F** should not bear the load of, or be adhered to the countertops.

The optimum recommended countertop thickness when using the Kalamazoo base cabinet with the Echo drop-in grill is 1.25 inches (32mm). Maximum is 2 inches (51mm). Minimum is 1 inch (25mm).
